THE DANCE OF LEADERSHIP & NEUROSCIENCE

What is required from leaders in this future digitised world of work?

A 2 ½ -day integrated leadership process deeply rooted in neuroscience with a core focus on leadership competencies for the future.

Participants will define their own Personal Aspirational Leadership Map as an outcome of the integrated journey:

Utilising a reflective leadership process as part of their journey

Using diagnostic driven development

Crafting a personal leadership plan rooted in the optimising of the neuro-based brain/body system

Embracing the value of peer-based learning

DAY 1

Our Whole Brain Portal

Comprehend the manner in which our brains process information. Understand how the ways our brains function impacts on decisions and actions. Establish the foundation for integrating personal, interpersonal and organisational leadership practices that are rooted in the neuroscience of optimising the brain/body system

The Brain at Rest – Creative Brain

Position mindfulness and elements such as safety, bonding, trust, and empathy as a core to sustainable relationships and creative thinking

The Diversity Within – Paradoxes and Perspectives

Establish the foundations of perspectives and polarities as primary drivers of personal authentic leadership

DAY 2

Pathways from hard wiring to rewiring: neural maps and barriers

Overcoming the effects of hardwiring and unblocking pathways to rewiring

The Virtues of Leadership

Integrate the roles of Power, Anxiety and Empathy as core elements of sustainable leadership

Leadership of Team Diversity

Build the capabilities to apply inclusive diversity to team dynamics

DAY 3

Creating the thinking organisation: moving from the organogram to organic systems

Use the underlying principles of neuroscience and *“living organisations”* to reimagine how to lead complex systems

Personal Aspirational Leadership: The next step/the leadership leap

Integrate the challenges of neuroscience and leadership to create a personal development process that creates a Personal Aspirational Leadership pathway
