BOARD LEADERSHIP PROGRAMME

3 DAY PROGRAMME

The Board programme is specifically directed at building the critical skills required for effective Board Level engagement. The most senior level of the organisation are provided with the opportunity to fine tune their higher order Leadership skills with specific focus on Leadership and Behavioural elements.

Delegates will explore Executive Boards to understand the importance of well-structured board agendas to bring insight and a fresh perspective. Problem solving and decision making will be part of the process while managing difficult conversations with internal and external culture. Explore roles and responsibilities of board members, including legal responsibilities and liabilities.

Delegates will understand the practical considerations of being a Director, the barriers to good governance in your role as a Director in the context of the business. The process will involve understanding effective communication with stakeholders, negotiation skills and collaborating for success and networking to build relationships.

A key aspect will focus on being a guardian of integrity and values, ensuring your Board has the Right Culture, Right People, Right Information, Right Processes and Right Follow-through.

Immersion: Delegates will take part in an At Court experience and explore case studies on Boards to test and practice their skills, explore areas for development through this process.
